

PERFIL CAVA GOLA

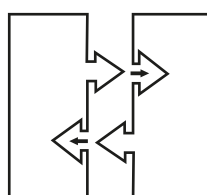

Essa linha se destaca por sua versatilidade utilizando poucos elementos. Com apenas dois modelos de perfis, é possível compor as aplicações horizontais e verticais. Ainda, na busca por otimizar os resultados da aplicação, o engate universal permite fixar e clipar em diversos ângulos, além de fazer a junção de colunas e fixação de tamponamentos.

● Especificações

Aplicações verticais
e horizontais

Fácil fixação por clip

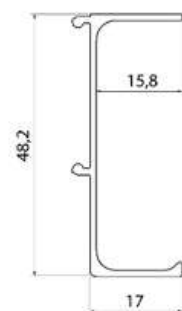

Barras de 4,2 metros

● Componentes

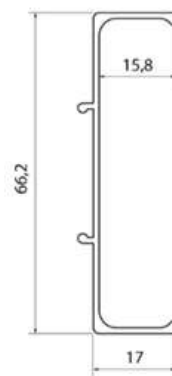

Perfil Gola Simples

Inox	80\G38.AL.04
Antracito	80\G38.59
